Welcome to the Community Services Directory: Your Anti-Violence Guide to Community Services.

The Greater Pittsburgh Coalition Against Violence developed this directory as a supplementary document to Strategies for Change: Building More Peaceful Communities, containing hundreds of strategies and suggestions of which, if implemented, could significantly reduce or even eradicate the violence that affects the health and safety of our communities.

Community Service Directory: Your Anti-violence Guide to Community Services contains many of the agencies, organizations and groups in the Metropolitan Pittsburgh area that provide violence prevention and intervention programming, as well as many other kinds of services. The purpose of the directory is to assist individuals and families in finding help within their particular communities, as well as providing opportunities for those who would like to provide financial, in-kind resources, and/or volunteer support. We encourage you to fully utilize and support those programs and services contained herein.

CAV created The Community Services Directory from the following sources:

- **Coalition Against Violence partners who provided information for inclusion in the directory.**
- **Solicitations for input from people who attended coalition meetings and events.**
- **On-line database systems of the Allegheny County Department of Human Services, Pittsburgh Public Schools and the United Way of Allegheny County.**

If you do not find what you are looking for, we would suggest that you go to the websites of United Way of Allegheny County to find additional resources:

This directory is also accessible through The Black Political Empowerment Project at <http://www.b-pep.net>

CAV made every reasonable effort to present current and accurate information. New Hope is an Evangelical Presbyterian Congregation. We are located on Pittsburgh's North Side in the Marshall-Shadeland neighborhood. Since that time, the congregation has grown to a diverse and racially mixed

group. Our mission is to make Disciples of Christ by offering hope through the ministry of reconciliation. This hope takes on reality in our outreach programs that attempt to meet the felt needs of the people in our community, then reconciling them to a committed relationship with God and others.
